ASHISH

Data Analyst
Phone: 9467890328 | Email: ashisheoran1@gmail.com
LinkedIn:linkedin.com/in/ashisheoran | GitHub: github.com/Ashisheoran

Summary

Entry-level Data Analyst with hands-on experience in data cleaning, exploratory data analysis, visualization, and applied machine learning. Proficient in Python, SQL, Excel, and Power BI, with experience working on real-world datasets to extract actionable business insights. Strong foundation in analytics workflows, dashboarding, and data-driven decision support.

Technical Skills

- **Programming & Analysis:** Python (pandas, NumPy), SQL
- **Data Analytics:** Data Cleaning, EDA, Feature Engineering, Descriptive Statistics
- **Machine Learning (Applied):** Linear Regression, Logistic Regression, Decision Trees
- **Visualization & BI:** Power BI (Dashboards, basic DAX), Matplotlib, Seaborn
- **Tools:** Jupyter Notebook, GitHub, VS Code
- **Databases & Spreadsheets:** MySQL, Excel (Pivot Tables, VLOOKUP)

Projects

Coffee Shop Sales Analysis | Python, pandas, Excel

- Analyzed retail sales data to identify hourly, daily, and weekly trends.
- Cleaned and prepared transactional data by handling missing values and duplicates.
- Performed univariate and bivariate analysis to evaluate product and customer performance.
- Identified peak sales periods and top products to support business decisions.

Sales & Performance Dashboard | Power BI

- Built interactive Power BI dashboards to track sales KPIs and trends.
- Used data modeling and basic DAX measures for calculated metrics.
- Enabled filtering by time and category for business analysis.

House Price Prediction | Python, Scikit-learn

- Analyzed housing data to identify factors influencing property prices.
- Performed data cleaning, EDA, and feature engineering on structured datasets.
- Built a regression model to estimate price ranges.
- Evaluated model performance using RMSE and R^2 metrics.

Experience

Data Science Trainee (Analytics Focus)
Novem Controls Pvt. Ltd., Mohali

- Performed exploratory data analysis and preprocessing on real-world datasets.
- Built and evaluated basic machine learning models using Python and Scikit-learn.
- Cleaned and transformed large datasets to improve data quality and reliability.
- Applied statistical techniques and feature engineering for analytical insights.
- Presented findings during weekly review meetings.

Education

Master of Computer Applications (MCA)
Kurukshetra University, Kurukshetra | 2024 – 2026

Bachelor of Science (Non-Medical)
Ch. Bansilal Govt. College, Loharu, Bhiwani | 2021 – 2024
